Washington," He Said, "We Revere, but Lincoln We Love"-Anecdotes Told at Lumber Manufacturers' Banquet.

Hundreds of men and women from all walks of life gathered last night at the special services held in observance of the natal anniversary of Abraham Lincoln. Negroes and whites alike did honor to the nemory of the martyred President, celebrating his name in speech and song, anecdote and reminiscence. As Lincoin's birth-day is not a legal holiday, the banks, clearing-houses and the greater part of the busiess-houses remained open for the day. The Merchants' and Stock exchanges were closed. Special services in commemoration of the day were held last night at the Odeon and at Temple Shaare-Emeth.

At the Odeon there was a reunion of the Lincoln-McKinley Association of Veteran Voters of the United States. Several G. A. R. men and others who voted for Lincoln occupied seats on the stage, which was draped with large American flags. A pertrait of Lincoin, with a frame of bunting, was given a prominent place. L. M. Conkling, president of the association, introduced the speakers. The programme consisted of short addresses, interspersed with patriotic songs by the Ransom Post Howlers.

The services were opened with "America" and an invocation by Doctor E. H. Sawyer. After "Marching Through Georgia" had been sung, the Reverend Doctor Leon Harrison delivered an address on "Abraham Lincoin," Doctor Harrison briefly sketched the career of the greatest American statesman, concluding with an eloquent culogy. Major W. R. Rhodes followed with a personal reminiscence of Lincoin.

General Ewell's Address.

The address on Lincoln was made by General Joseph E. Ewell of Buffalo, N. Y., past judge advocate general of the G. A. R. General Ewell's address was an eloquent tribute to the life of the great war President. In part, he said:

"Of the two foremost Americans, one was the more sympathetic, and hence it is, while Washington we honor, respect and revere, Abraham Lincoln we lova. No other person has so challenged the affections or touched the heart. Previous to the 4th of March, 1861, Abraham Lincoln was simply a promise, an expectation, and a hope The first important question he was called upon to settle related to the Fort Sumpter affair. Practically it involved the whole issue of national supremacy. Lincoln gave the subject the most careful thought and study and arrived at a correct conclusion almost unaided and alone. When he issued his orders for resupplying Fort Sumpter he made an epoch in the history of the United States.

orders for resupplying Fort Sumpter he made an epoch in the history of the United States.

"The lesson of Lincoln's life is simple, yet far-reaching; plain, yet majestic and profound. It is a constant upbuilding educational force in every department of knowledge and along every line of human endeavor. The most prominent feature is honesty of the kind that seeks to fulful the highest obligations not only of justice, but of humanity and benevolence.

"Lincoln was the author of no new creation either in morals, ethics or government, and he gave utterance to no sentiments that had not been expressed before. His mission was to curb the flery steed rather than apply the spurs—to harmonize, adjust and conserve, rather than create, upturn or destroy. No one was ever less changed by translation from a lower to a higher sphere. His words have entered into every literature, teaching that which is highest and best, pleading for the poor and lowly, and calling for the highest ideals in public and private life, and for the very best use of all those divine faculties with which human nature is so abundantly endowed."

Henry Rauchens, the 10-year-old son of Mr. and Mrs. Louis Bauchens of No. 210 Collinsville avenue, East St. Louis, was run over by a street car yesterday evening and his body mangied beyond recognition.

The boy had jumped on the rear fender of a car running toward the bridge, to ride half a block. It is a practice of many small boys to ride thus on the cars when the conductor is not looking.

When opposite Schlueter's drug store the boy jumped off the car and started across the street. He did not notice a car coming up the other track. The car knocked the boy down and the wheels ground his body to pieces before the car was stopped. It

Frederick II. Smith, president of the Kickapoo Club and member of Governor Yates's staff, introduced Frank P. Bargent, chief of the Brotherhood of Locomotive Firemen, as toastmaster.

Governor Yates responded to the toast Governor Yates responded to the toast "Abraham Lincoln," and spoke with feeling and eloquence. Columbus, O., Feb. 12 - The ninety-second anniversary of the birth of Abraham Lincoln was celebrated here to-night by the Jefferson, Jackson and Lincoln League with a dollar dinner at the Columbus Auditorium. There were fully 1.500 persons seated at the tables which occupied the floor of the immense hall, and 1,000 more were seated in the galleries, which had been thrown open to spectators. Many ladies were reticed among those at the tables. The bill of fare was not elaborate. There were no cigars nor beverages stronger than coffee. It was after 7 o'clock before the banquet began, and considerably after & before the

"At this time, when commercialism is searing the conscience of the nation; when the worship of Mammon is leading the people to ignore inalienable rights; when the ideals bought with blood and sacrifice are to be bartered away for the specious and delusive promises of Empire—at this time, I repeat, we need to have our faith in man as man, and our love for man as brother, rekindled by the memory of this mighty patriot, philosopher and Democrat, whose brain comprehended the height and depth and breadth of government, and whose heart embraced the human race."

The only speakers who failed to respond were Senators Pettigrew and Carmack. The latter's speech on Jefferson and Lincoln was read by Congressman Shaforth of Colorado.

Altgeld's Talk.

Former Governor Altgeld said in part:

"While Jefferson, Jackson and Lincoln were not agitators, but statesmen, they were always in the advance guard of political progress and neither of them ever once asked the question whether a certain proposition would win or lose votes. The question with them was not whether they could get offices or carry elections, but the question always was, what is the just and the right thing to do? What is the necessary thing to do in order to completely and perfectly protect the people, not only in their lives and liberties, but in their pursuit of happiness? And if the Democratic party is to have any excuse for existence we must pattern after these great men.

istence we must pattern after these great men.

"The man who would fix a platform for a campaign solely with a reference to its vote-catching properties is a trimmer; is a man who will never do his country any good; is a man who should have no place in the Democratic narry. For if that party is to have a mission it must be a positive party. The world is moved and controlled by positive men and positive forces. Examine the pay roll of the Almighty and you will not find a trimmer on it. Climb the lofty heights and search the shining temple of fame and you will not find a single trimmer within its immortal precincts.

"It is the Jacksonian spirit, my friends, that breathes immortality and deals with the everlasting. It is not absolutely necessary to hold office or to win elections. The world's progress has been accomplished by men who did not hold office and frequently an aggressive and determined and positive minority party has shaped the destiny of a country by forcoing the majority party to adopt its policies."
